

# Adrian Lawson

## Web3 Smart Contract Developer

Smart Contract Engineer who is ready to apply best practices and bleeding edge blockchain technology to rapidly produce secure and innovative smart contracts. Skilled at turning ideas into technical requirements and working autonomously. Comfortable serving as thought leader to establish the best approach to completing a project.

## Work History

**2021-04 -  
Current**

### Smart Contract Engineer

*Fandem, Laguna Niguel, CA*

- Engineer smart contracts for several custom main net projects
- Secure hundreds of thousands of dollars in smart contracts
- Increase development speed by 88% by establishing standardized processes and testing across projects
- Advise clients on best approaches to desired outcomes
- Construct backend infrastructure using Google Cloud functions, Mongo DB, Moralis, Ethers.js
- Optimize gas fees
- Deliver MVPs at breakneck speed

**2021-01 -  
2021-04**

### Smart Contract Engineer

*Semblar, Laguna Niguel, CA*

- Architected smart contract to create NFT marketplace for fine art
- Developed smart contract according to requirements
- Built backend infrastructure using Moralis cloud and database (Mongo)
- Performed smart contract tests to ensure security and best practices
- Worked flexible hours across night, weekend and holiday shifts

## Contact

### Address

Laguna Niguel, CA, 92677

### Phone

(949) 310-9922

### E-mail

## Technical Profile

- Solidity
- Ethers.js
- Web3.js
- Node.js
- ChainLink
- Hardhat
- Chai
- Google Cloud Platform
- Cloud Functions
- Moralis
- IPFS
- MongoDB
- GitHub

## Competencies

Rapid MVP Development

Converting Product

## Education

---

**2019-08 - 2021-05**      **Bachelor of Science: Computer Science**  
*California State University - Fullerton - Fullerton, CA*

**2015-01 - 2019-05**      **Some College (No Degree): Computer Science**  
*Irvine Valley College - Irvine, CA*

## Certifications

---

**2022-02**      Ivan on Tech - Intermediate Blockchain Developer

**2022-02**      Ivan on Tech - Smart Contract Security

**2022-02**      Ivan on Tech - Ethereum Smart Contract Programming 201
